

# Sanitary Base

Ecore's Sanitary Base System creates an integrated floor system that supports sterile environments. By covering the joint at which two surfaces meet, moisture and germs are prevented from penetrating the area. The base is available in 7 colors. The system includes sanitary base, composition rubber underlayment, Floor/Wall Contact Tape and Cold Weld.

## PRODUCT INFORMATION

See color chart for recommended color pairings. Contact your local Ecore representative for more information or visit [ecoreintl.com](http://ecoreintl.com).

### Components:
