

eco
surfaces

ECOsurfaces is a sustainable flooring brand dedicated to improving lives — for people today and for generations to come.

We’re focused on the interaction between people and surfaces to optimize health and wellness, maximize comfort, and protect the earth — our ultimate base layer — for generations to come. Using innovative technology to upcycle renewable rubber and engineer beautiful flooring with industry-leading, acoustic, ergonomic, and safety performance attributes, ECOsurfaces cares for people and the planet.

Technical Details

Performance Criteria	Test Standard	Results
Recovery After Static Load	ASTM F970	0.005" @ 250psi
Coefficient of Friction	ASTM D2047	≥ 0.6
VOCs	CA 01350	Pass
Reaction to Fire	ASTM E648	Class II
Abrasion Resistance	ASTM D3389	Pass
Impact Insulation Class *	ASTM E492	54
Delta IIC *	ASTM E2179	23

*Tested on a 6" concrete slab with no ceiling

Nada Rx features a 2mm PVC-free resilient surface layer factory fusion bonded to a 5mm vulcanized composition rubber (VCR) base layer. Designed for commercial spaces where safety, acoustic performance, ergonomic support, comfort under foot, and hygienic conditions are key, Nada Rx with heat-welded seams is easy to maintain, stain resistant, and performs in heavy traffic and load areas.

Nominal Dimensions

 **7mm Rolls**
2mm surface layer fusion bonded to a 5mm rubber base layer
57" (1.45m) wide x 30 LF (9.14m)

Recommended Applications

Medical/Acute Care | Clinical/Labs
Therapy/Rehab | Common Areas

BUILT ON
itsTRU
TECHNOLOGY

 **10.6%** **Force Reduction**
Absorption of impact energy

NRG Factor = Optimal Performance

 **68.0%** **Energy Restitution**
Useful return of impact energy

Nada Rx offers a limited warranty of 5 years. Please visit ecosurfaces.com for more information. Actual samples and final product may vary from color swatches shown. For additional information, please visit ecosurfaces.com
